

[PF-41] Verify Organization functionality Created: 21/Apr/23 10:18 AM - Updated: 22/Jun/23 2:05 PM - Resolved: 22/Jun/23 2:05 PM

Status: Done Proiect final Project: Component/s: None Fix Version/s: None Medium Type:

Story **Priority:** Sabina Gabor Unassigned Reporter: Assignee:

Resolution: Done Votes:

Labels: None

Original Estimate: Not Specified Remaining Estimate: Not Specified **Time Spent:** Not Specified

Description

All information about the organization, the structure and locations are defined here.

General Information

Basic details of the company can be entered on this screen. To start adding information, go to Admin>> Organization>> General Information and click "Edit".

Click "Save" once fields are entered as shown in Figure 2.6.

Figure 2.6: General Information

Locations

Under Locations, the HR admin can add details of sites and branches of the company. You are also able to track the number of employees working for a particular location once employees are tagged to the locations when building up the PIM Module.

To add a location go to Admin>>Organization>>Location and click "Add" and the screen as shown in Figure 2.7 would appear.

Click "Save" once the fields are added.

Figure 2.7: Add Location

Once a location is added, it will be listed as shown in Figure 2.8. You may also enter multiple locations. You may view location details by clicking on "Location Name".

Figure 2.8: Location List

To delete a location click on the check box next to the location name. It is also possible to delete multiple entries at the same time by clicking the check box entries you wish to delete and simply clicking "Delete".

Structure

This feature allows the admin to define the hierarchy of the company by defining sub units. Since the parent company is already defined in the General Information, it would automatically appear in the Company Structure screen.

*Note: You need to define the company name of the parent company before you create the Company Structure.

To add a sub- unit to the company structure, go to Admin>> Organization>> Structure and click on [+] as shown in Figure 2.9 and the screen shown in Figure 3.0 would appear.

Figure 2.9: Add Sub-Unit

Figure 3.0: Sub-Unit Details

*Note: Company Structure may be defined according to the company's specifications and hierarchy. When entering the fields, you need to specify if the sub-unit is a Department, Division or Team.

Once you have entered the field, click "Save" and the Sub-Unit will appear as shown in Figure 3.1.

Figure 3.1: Sub-Unit Structure

You may also add further sub-units by clicking [+] option next to the relevant fields to indicate the hierarchy levels of the company and create a pyramidal structure of your organization as shown in Figure 3.2.

Figure 3.2: Company Structure Hierarchy

To delete an entry, you can simply click "[x]" next to the relevant sub units. Click "Done" below the screen to save the information. You can also collapse/expand the sub-units by clicking on the and on the right hand side of the sub-units to further view the company structure hierarchy.
